DIRECTORS' REPORT

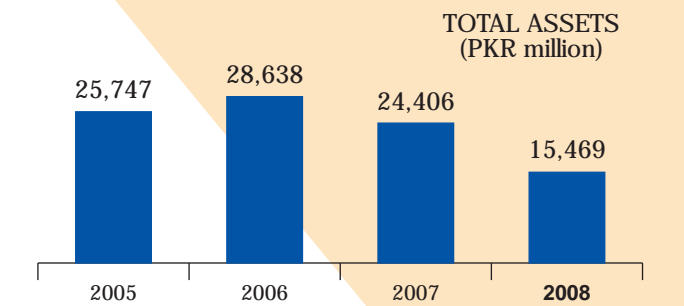

It is our privilege to present the 30th Annual Report along with the financial statements for the year ended December 31, 2008.

FINANCIAL HIGHLIGHTS

For the Year (PKR million)	2008	2007
Net Markup Based Income	607	608
Non Markup Income	254	1,573
Total Income	861	2,181
Admin Expenses	286	400
Profit before Provisions	575	1,781
Provisions	4,647	38
Profit Before Taxation	(4,072)	1,743
Taxation	30	294
Profit After Taxation	(4,102)	1,449

At Year end (PKR million)	2008	2007
Total Assets	15,469	24,406
Liabilities	7,159	11,414
Share Capital	6,000	6,000
Reserves	6,448	5,791

2008 was a disappointing year for the financial sector. Our company recorded a loss before tax of PKR 4,072 million and loss after tax of PKR 4,102 million. The balance sheet stood at PKR15,469 million as of Dec 31, 2008 as compared to PKR24,406 million for the previous year, representing a decline of 36%, due to the impairment losses booked.

The Securities and Exchange Commission of Pakistan allowed deferment of the impairment losses, a norm followed by most of the financial services industry. PKIC's Board, despite the relaxation allowed by the regulator, took a more prudent approach by recognizing the entire impairment loss in the financial year 2008.

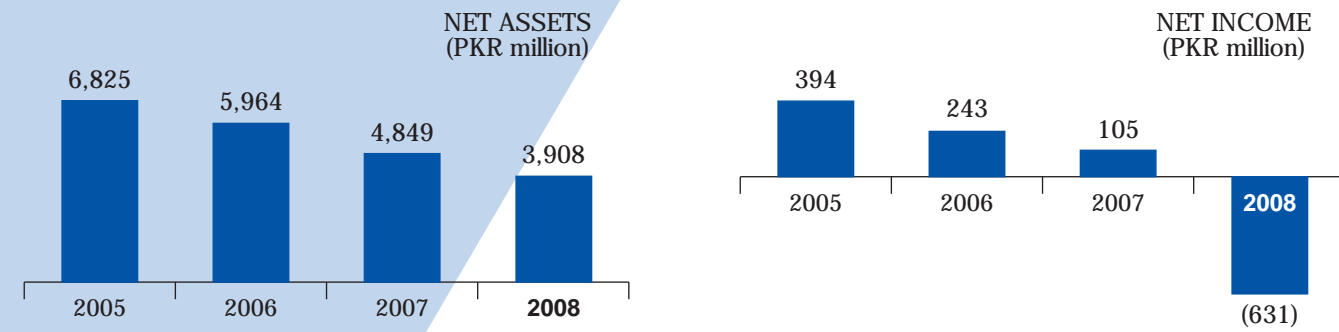

Economic downturn, resulting in NPLs and weak investor confidence, was the main reason for the depressed financial performance of PKIC. Low economic growth rate (FY09 expected 3.7% against an average of 7% during the period 2004-08) coupled with high inflation (FY09 expected 20% against an average of 8.32% in the period 2004-08) plagued the performance of the financial sector. The international commodity super spike and its impact on the domestic front derailed the growth path of the economy. The distressed economic conditions were also reflected in the country's benchmark index, the Karachi Stock Exchange-100 Index. The KSE-100 dropped by a massive 58.34% in CY2008, consequently a floor was placed on the index for period of hundred and ten days to give the market some breathing space.

The IMF program coupled with SBP's prudent policies is expected to bring discipline in all aspects of the economy, restoring foreign investors' confidence. Your company stands by its vision to be the financial house of excellence.

OPERATIONS

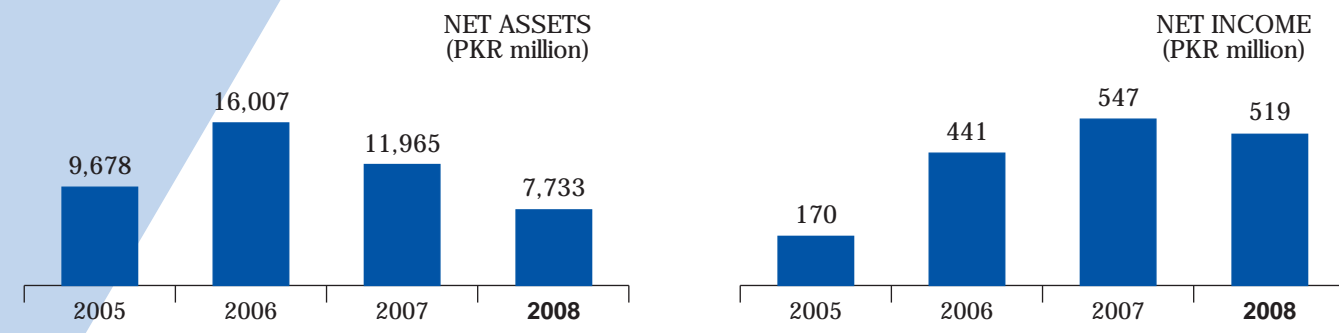

Corporate Finance

Provisioning against NPLs turned the profits of the department into losses. Inflation, global recession, power shortage and volatile raw material prices squeezed the margins of the industrial segment.

TREASURY

The treasury serves the liquidity function of the company. The treasury has optimized its resources and significantly contributed to the company's bottom line.

CAPITAL MARKET

Adverse economic conditions took toll on the PKIC equity portfolio. The benchmark KSE-100 fell by 58% during 2008. The company has taken 100% impairment on its portfolio despite the relaxation given by SECP as a matter of prudence and fair presentation of financial statements.

Investment Banking

Due to uncertain economic conditions, the investment climate remained bleak and investment banking revenues plummeted.

Future Outlook

2009 seems to be a year of consolidation, as the economy cools down. However, there are ample opportunities in the on-going expansion projects of some strategic sectors like Fertilizer, Power, Oil & Gas Exploration and Production. The new government's focus on the commodity-producing sector of the economy is expected to further boost investment in the domestic economy.

As the banking sector is faced with challenges of minimum CAR and ADR requirements, we believe this is a good opportunity for PKIC to capitalize. In order to maximize shareholder return, PKIC has planned to leverage its balance sheet as well as focusing on fee-based income. The company has targeted strategic sectors having stable demand outlook as its favored sectors of the economy. Moreover, the company has planned to enhance its fee-based income by providing advisory services on mergers & acquisitions, balance sheet restructuring, private equity, distressed asset sale etc. The economic slow down presents an ideal opportunity to generate business from restructuring activities.

Risk Management Framework

PKIC fully recognizes that the risk management function is fundamental to the business of finance and is an essential element of our banking strategy. The management has a clear understanding and appreciation of Credit, Market, Liquidity and Operational risks and has synchronized the distinct risks into the operating parameters, in order to manage them within acceptable limits. The approach used for risk management has taken into account the nature and size of the organization. The management is fully cognizant to induct additional required resources and infrastructure, which can further improve the company's risk management capabilities.

Business Continuity Plan (BCP) at Pak-Kuwait is functional to meet the operational requirements of the company in case of a disaster situation. The first testing of BCP cold site has been successfully carried out.

Entity & Credit Rating of Pakistan Kuwait Investment Company

The Pakistan Credit Rating Agency (PACRA) has made adjustment in the long-term entity rating of our Company to AA+ (double A plus), while maintaining the short term rating at A1+ (A one Plus). These rating imply a low credit risk along with capacity for timely payments coupled with sovereign support. The adjustment reflects a need for improvement in the governance framework, even though the agency ratings recognize the strong risk absorption capacity of our company.

JCR-VIS Credit rating Company has reaffirmed the medium to long term entity rating of the company at 'AAA' (Triple AAA) with stable outlook. The short term entity rating has also been reaffirmed at 'A-1+' (A-One Plus). PKIC's rating derives strength from the low risk profile along with the support of the two joint ventures.

Compliance with Code of Corporate Governance

The Directors confirm the compliance of the requirements of the Code of Corporate Governance relevant for the year ended December 31, 2008 as practicably applicable. In this connection, the compliance of relevant clauses of the code is stated below:

- n These financial statements present fairly the state of affairs of the company, the result of its operations, cash flow and changes in equity.
- n The company has maintained proper books of accounts.

- n Appropriate accounting policies have been consistently applied in preparation of financial statements and accounting estimates are based on reasonable and prudent judgment.
- n International Accounting Standards, as applicable in Pakistan, have been followed in preparation of financial statements and any departure there from has been adequately disclosed.
- n The system of internal control is sound in design and has been effectively implemented and monitored. The controls which are in place are being continuously reviewed by the Internal Audit department and the process of review and monitoring will continue with the object to improve further.
- n All liabilities in regard to the payment on account of taxes, duties, levies and charges have been fully provided and will be paid in due course or where claim was not acknowledged as liability the same is disclosed as contingent liabilities in the notes to the accounts.
- n There is no doubt about the company's ability to continue as a going concern.
- n There has been no material departure from the best practices of corporate governance, as detailed in the listing regulations.
- n The Board of Directors and employees of the company have signed 'Statement of Ethics and Business Practices'.

Board Meetings

Statement of Investments of Provident and Gratuity Funds

Investments of Provident and Gratuity Funds as at December 31, 2008 according to their respective un-audited accounts were PKR 53.485 million and PKR 12.226 million, respectively. Investment of Provident Fund amounted to PKR 48.458 million as at December 31, 2005 according to its audited accounts.

Auditors

Audit Committee had recommended the name of M/s. Ford Rhodes Sidat Hyder & Co Chartered Accountants, to be the auditors for the year ending December 31, 2009, to replace M/s. KPMG Taseer Hadi & Co, Chartered Accountants who were auditors of the Company for the last five years. Accordingly, the Board approved the recommendation of the Audit Committee and recommended the name of M/s. Ford Rhodes Sidat Hyder & Co., Chartered Accountant for consideration and approval at the Annual General Meeting.

Acknowledgement

No institution can be successful without its people who are to be complimented for performing well under difficult circumstances. The Board would like to place on record appreciation for the role of our staff members in their commitment and dedication to work.

We welcome Mr. Shamsul Hasan as the new Managing Director in place of Mr. Istaqbal Mehdi.

We would like to express sincere gratitude to our shareholders for having reposed confidence in us and their consistent support and guidance during the year. We would also like to record our appreciation to the State Bank of Pakistan and the Securities and Exchange Commission of Pakistan for their support and cooperation.

On behalf of the Board of Directors

Shamsul Hasan

STATEMENT OF COMPLIANCE WITH THE CODE OF CORPORATE GOVERNANCE FOR THE YEAR ENDED DECEMBER 31, 2008

This statement is being presented to comply with the Code of Corporate Governance framed by the Securities & Exchange Commission of Pakistan which was made applicable to the company through Regulation G-1 of the Prudential Regulations for Corporate/ Commercial Banking issued by the State Bank of Pakistan.

The company has applied the principles contained in the Code in the following manner:

1. The company encourages representation of non-executive directors. At present the Board has one executive director.
2. The directors have confirmed that none of them is serving as a director in more than ten listed companies, including this company.
3. All the resident directors of the company are registered as taxpayers and none of them has defaulted in payment of any loan to a banking company, a DFI or an NBFIs or, being a member of stock exchange, has been declared as a defaulter by that stock exchange.
4. During the year, two directors were replaced Mr. Muhammad Abdullah Yusuf and Mr. Shamsul Hasan replaced Mr. Ahmad Waqar and Mr. Istaqbal Mehdi respectively as nominees of Government of Pakistan.
5. Statement of Ethics and Business Practices has been approved and signed by the Board of Directors and also signed by the employees of the company.
6. The Board has approved a vision / mission statement, overall corporate strategy and significant policies of the company. A complete record of particulars of significant policies along with the dates on which they were approved or amended has been maintained.
7. All the powers of the Board have been duly exercised and decisions on material transactions, including appointment of the Managing Director have been taken by the Board.
8. The meetings of the Board were presided over by the Chairman. The Board met five times during the year. The minutes of the meetings were appropriately recorded and circulated.
9. The directors' report for the year has been prepared in compliance with the requirements of the Code and fully describes the salient matters required to be disclosed.
10. The financial statements of the company were duly endorsed by the Managing Director and Deputy General Manager before approval of the Board.
11. The directors, Managing Director and executives do not hold any interest in the shares of the company.
12. The company has complied with all the corporate and financial reporting requirements of the Code.
13. The Board has formed an Audit Committee. All the three members of the Audit Committee are non executive directors.
14. During the year, four Audit Committee meetings were held, which also included review of the half-yearly results and review of the annual financial results of the company as required by the Code.
15. The Board has set-up an effective internal audit function.

16. The statutory auditors of the company have confirmed that they have been given a satisfactory rating under the quality control review programme of the Institute of Chartered Accountants of Pakistan and that the firm and all its partners are in compliance with the International Federation of Accountants (IFAC) guidelines on code of ethics as adopted by the Institute of Chartered Accountants of Pakistan. The auditors or any partners of the firm, their spouses or minor children do not hold shares of the company.
17. The statutory auditors or the persons associated with them have not been appointed to provide other services except permitted services and the auditors have confirmed that they have observed IFAC guidelines in this regard.
18. We confirm that all other material principles contained in the code have been complied.

Chief Executive

REVIEW REPORT TO THE MEMBERS ON STATEMENT OF COMPLIANCE WITH BEST PRACTICES OF CODE OF CORPORATE GOVERNANCE

We have reviewed the Statement of Compliance with the best practices contained in the Code of Corporate Governance prepared by the Board of Directors of Pakistan Kuwait Investment Company (Private) Limited to comply with Regulation G-1 of Prudential Regulations for Corporate / Commercial Banking issued by the State Bank of Pakistan.

The responsibility for compliance with the Code of Corporate Governance is that of the Board of Directors of the Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Code of Corporate Governance and report if it does not. A review is limited primarily to inquiries of the Company personnel and review of various documents prepared by the Company to comply with the Code.

As part of our audit of financial statements we are required to obtain an understanding of the accounting and internal control system sufficient to plan the audit and develop an effective audit approach. We have not carried out any special review of the internal control system to enable us to express an opinion as to whether the Board's statement on internal control covers all controls and the effectiveness of such internal controls.

Based on our review, nothing has come to our attention, which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the best practices contained in the Code of Corporate Governance as applicable to the Company for the year ended December 31, 2008.

STATEMENT ON INTERNAL CONTROL

REPORTING ON INTERNAL CONTROL SYSTEM

It is the responsibility of the company's management to establish and maintain an adequate and effective system of internal control that could help in company's endeavor to attain a professional and efficient working environment throughout the company. The Internal Control System comprises of control procedures and control environment.

Management ensures the efficient and effective Internal Control System by identifying control objectives reviewing pertinent policies / procedures and establishing relevant control procedures. All policies and procedures are reviewed and compared with existing practices and necessary amendments made where required on timely basis.

Alongside this appropriate test of transactions, observation of control environment, sharing of findings of Internal Control Systems and ensuring relevant appropriate follow-ups / corrective actions are also being done by the management on regular basis.

EVALUATION OF EXISTING INTERNAL CONTROL SYSTEMS

The company has made efforts to ensure during the year 2008 that an effective and efficient internal control system is implemented and no compromise is made in implementing the desired control procedures and maintaining suitable control environment in general. However, it is an ongoing process that includes identification, evaluation and management of significant risks faced by the company.

The observations and weaknesses found and identified by the auditors, both internal and external, have been taken care of and necessary steps have been taken by the management in the due time so as to ensure non-repetition of those exceptions and eliminations of such weaknesses to the maximum possible level. The management has also given timely and satisfactory response to the recommendations and suggestions made by its auditors.

We assess that the internal control system, customer services and operations have been maintained as compared to previous year in all areas/functions of the company. Further, due attention and focus is to enhance competence level and knowledge of the employees.

Unconsolidated Financial Statements

For the year ended
December 31, 2008

Auditors' Report to the Members

We have audited the annexed unconsolidated balance sheet of Pakistan Kuwait Investment Company (Private) Limited as at December 31, 2008 and the related unconsolidated profit and loss account, unconsolidated cash flow statement and unconsolidated statement of changes in equity together with the notes forming part thereof (here-in-after referred to as the 'financial statements') for the year then ended and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

It is the responsibility of the company's management to establish and maintain a system of internal control, and prepare and present the above said statements in conformity with the approved accounting standards and the requirements of the Companies Ordinance, 1984. Our responsibility is to express an opinion on these statements based on our audit.

We conducted our audit in accordance with the auditing standards as applicable in Pakistan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the above said statements are free of any material misstatement. An audit includes examining, on a test basis, evidence supporting the amount and disclosures in the above said statements. An audit also includes assessing the accounting policies and significant estimates made by management, as well as, evaluating the overall presentation of the above said statements. We believe that our audit provides a reasonable basis for our opinion and, after due verification, we report that:

- a) in our opinion, proper books of account have been kept by the company as required by the Companies Ordinance, 1984;
- b) in our opinion:
 - i) the balance sheet and profit and loss account together with the notes thereon have been drawn up in conformity with the Companies Ordinance, 1984 and are in agreement with the books of account and are further in accordance with accounting policies consistently applied;
 - ii) the expenditure incurred during the year was for the purpose of the company's business; and
 - iii) the business conducted, investments made and the expenditure incurred during the year were in accordance with the objects of the company;
- c) in our opinion and to the best of our information and according to the explanations given to us, the unconsolidated balance sheet, unconsolidated profit and loss account, unconsolidated cash flow statement and unconsolidated statement of changes in equity together with the notes forming part thereof conform with approved accounting standards as applicable in Pakistan, and give the information required by the companies Ordinance, 1984 in the manner so required and respectively give a true and fair view of the state of the company's affairs as at December 31, 2008 and of the loss, its cash flows and changes in equity for the year then ended; and
- d) in our opinion no zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

The annexed notes 1 to 40 and annexures I and II form an integral part of these financial statements.

Chief Executive

Director

Notes to and Forming Part of the Unconsolidated Financial Statements

For the year ended December 31, 2008

1. STATUS AND NATURE OF BUSINESS

Pakistan Kuwait Investment Company (Private) Limited ("the company") was incorporated in Pakistan as a Private Limited Company on March 17, 1979. The registered office is situated at 4th Floor, Block 'C', Finance and Trade Centre, Shahrah-e-Faisal, Karachi. The company is a 50:50 joint venture between the Governments of Pakistan and Kuwait. The objective of the company is to profitably promote industrial investments in Pakistan. The company has two 100% owned subsidiaries, First Choice Securities Limited (FCSL) and Pak Kuwait Financial Services Limited (PKFSL). FCSL is principally engaged in the business of equity brokerage, money markets and foreign exchange brokerage, equity research and corporate financial advisory services. The principal business of PKFSL is to provide Assets Management Services. Both FCSL and PKFSL have not started their operations.

These financial statements are separate financial statements of the company in which investments in subsidiaries and associates are accounted for on the basis of direct equity interest rather than on the basis of reported results. Consolidated financial statements are prepared separately.

2. STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Companies Ordinance, 1984 and the directives issued by the State Bank of Pakistan (SBP). In case requirements differ, the provisions of and directives issued under the Companies Ordinance, 1984, and directives issued by the SBP shall prevail. The SBP through its BSD Circular letter No. 11 dated September 11, 2002 has deferred the implementation of IAS 39 'Financial Instruments: Recognition and Measurement' and IAS 40 'Investment Property' for Non-Banking Financial Institutions (NBFIs) in Pakistan. Accordingly, the requirements of these International Accounting Standards (IASs) and their respective interpretations issued by International Financial Reporting Interpretations Committee (IFRIC) and Standing Interpretations Committee (SIC), have not been considered in preparation of these financial statements.

2.1 Forthcoming accounting changes

The following standards, interpretations and amendments of approved accounting standards are effective for accounting periods beginning from the dates specified below. Revised IAS 1 - Presentation of financial statements (effective for annual periods beginning on or after 1 January 2009) introduces the term total comprehensive income, which represents changes in equity during a period other than those changes resulting from transactions with owners in their capacity as owners. Total comprehensive income may be presented in either a single statement of comprehensive income (effectively combining both the income statement and all non-owner changes in equity in a single statement), or in an income statement and a separate statement of comprehensive income. This change will be affected after directions from regulator.

Revised IAS 23 - Borrowing costs (effective for annual periods beginning on or after 1 January 2009) removes the option to expense borrowing costs and requires that an entity capitalize borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset. The application of the standard is not likely to have an effect on the Company's financial statements.

Revised IAS 29 - Financial Reporting in Hyperinflationary Economies (effective for annual periods beginning on or after 28 April 2008). The company does not have any operations in Hyperinflationary Economies and therefore the standard is not relevant to Company's operations.

Amendments to IAS 32 Financial Instruments: Presentation and IAS 1 Presentation of Financial Statements (effective for annual periods beginning on or after 1 January 2009) - Puttable Financial Instruments and Obligations Arising on Liquidation requires puttable instruments, and instruments that impose on the entity an obligation to deliver to another party a pro rata share of the net assets of the entity only on liquidation, to be classified as equity if certain conditions are met. The amendments, which require retrospective application, are not expected to have any impact on the Company's financial statements.

Amendment to IFRS 2 Share-based Payment - Vesting Conditions and Cancellations (effective for annual periods beginning on or after 1 January 2009) clarifies the definition of vesting conditions, introduces the concept of non-vesting conditions, requires non-vesting conditions to be reflected in grant-date fair value and provides the accounting treatment for non-vesting conditions and cancellations. The application of this standard is not likely to have any effect on the Company's financial statements.

Revised IFRS 3 Business Combinations (applicable for annual periods beginning on or after 1 July 2009) broadens among other things the definition of business resulting in more acquisitions being treated as business combinations, contingent consideration to be measured at fair value, transaction costs other than share and debt issue costs to be expensed, any pre-existing interest in an acquiree to be measured at either fair value, or at its proportionate interest in the identifiable assets and liabilities of an acquiree on a transaction-by-transaction basis. The application of this standard is not likely to have an effect on the Company's financial statements.

Amended IAS 27 Consolidated and Separate Financial Statements (effective for annual periods beginning on or after 1 July 2009) requires accounting for changes in ownership interest by the group in a subsidiary, while maintaining control, to be recognized as an equity transaction. When the group loses control of a subsidiary, any interest retained in the former subsidiary will be measured at fair value with the gain or loss recognized in the profit or loss. The application of the standard is not likely to have an effect on the Company's financial statements.

IFRS 7 - Financial Instruments: Disclosures (effective for annual periods beginning on or after 28 April 2008) supersedes IAS 30 - Disclosures in the Financial Statements of Banks and Similar Financial Institutions and the disclosure requirements of IAS 32 - Financial Instruments: Disclosure and Presentation. The application of the standard is not expected to have significant impact on the Company's financial statements other than increase in disclosures.

IFRS 8 - Operating Segments (effective for annual periods beginning on or after 1 January 2009) introduces the "management approach" to segment reporting. IFRS 8 will require a change in the presentation and disclosure of segment information based on the internal reports that are regularly reviewed by the Company's "chief operating decision maker" in order to assess each segment's performance and to allocate resources to them. Currently the company presents segment information in respect of its business and geographical segments. This standard will have no effect on the Company's reported total profit or loss or equity.

IFRIC 13 - Customer Loyalty Programmes (effective for annual periods beginning on or after 1 July 2008) addresses the accounting by entities that operate or otherwise participate in customer loyalty programmes under which the customer can redeem credits for awards such as free or discounted goods or services. The IFRIC 13 is not relevant to Company's operations.

IFRIC 15 - Agreement for the Construction of Real Estate (effective for annual periods beginning on or after 1 October 2009) clarifies the recognition of revenue by real estate developers for sale of units, such as apartments or houses, 'off-plan', that is, before construction is complete. The amendment is not relevant to the Company's operations.

IFRIC 16 - Hedge of Net Investment in a Foreign Operation (effective for annual periods beginning on or after 1 October, 2009) clarifies that net investment hedging can be applied only to foreign exchange differences arising between the functional currency of a foreign operation and the parent entity's functional currency and only in an amount equal to or less than the net assets of the foreign operation, the hedging instrument may be held by any entity within the group except the foreign operation that is being hedged and that on disposal of a hedged operation, the cumulative gain or loss on the hedging instrument that was determined to be effective is reclassified to the profit or loss. The Interpretation allows an entity that used the step-by-step method of consolidation an accounting policy choice to determine the cumulative currency translation adjustment that is reclassified to profit or loss on disposal of a net investment as if the direct method of consolidation had been used. The amendment is not relevant to the Company's operations.

The International Accounting Standards Board made certain amendments to existing standards as part of its first annual improvements project. The effective dates for these amendments vary by standard and most will be applicable to the Company's 2009 financial statements. These amendments are unlikely to have an impact on the Company's financial statements.

IAS 27 'Consolidated and separate financial statements' (effective for annual periods beginning on or after 1 January 2009). The amendment removes the definition of the cost method from IAS 27 and replaces it with a requirement to present dividends as income in the separate financial statements of the investor. The amendment is not likely to have an effect on Company's financial statements.

IFRIC 17 - Distributions on Non-cash Assets to Owners (effective for annual periods beginning on or after 1 July 2009) states that when a company distributes non cash assets to its shareholders as dividend the liability for the dividend is measured at fair value. If there are subsequent changes in the fair value before the liability is discharged, this is recognized in equity. When the non cash asset is distributed, the difference between the carrying amount as fair value is recognized in the income statement. As the Company does not distribute non cash assets to its shareholders, this interpretation has no impact on the Company's financial statements.

IFRS 5 Amendment - Improvements to IFRSs - IFRS 5 Non-Current Assets Held for Sale and Discounted Operations (effective for annual periods beginning on or after 1 July 2009) specify that: if an entity is committed to a sale plan involving the loss of control of a subsidiary, then it would classify all of that subsidiary's assets and liabilities as held for sale when the held for sale criteria in paragraphs 6 to 8 of IFRS 5 are met. Disclosures for discontinued operations would be required by the parent when a subsidiary meets the definition of a discontinued operation. The amendment is not likely to have an effect on Company's financial statements.

3. BASIS OF PRESENTATION

3.1 Basis of measurement

These financial statements have been prepared on the historical cost basis as modified for revaluation of certain investments at market rates in accordance with the requirements of BSD Circular No. 10 dated July 13, 2004 as amended through BSD Circular No. 11 dated August 04, 2004 and BSD Circular No. 14 dated September 24, 2004.

3.2 Functional and presentation currency

The financial statements are presented in Pakistan Rupees which is company's functional currency. The amounts are rounded to nearest thousand rupees.

3.3 Use of accounting estimates and judgements

The preparation of financial statements in conformity with approved accounting standards requires management to make judgements, estimates and assumptions that affect the application of policies and reported amount of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form basis of making the judgements about carrying values of assets and liabilities which are not readily apparent from other sources. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of its revision and future periods if the revision affects both current and future periods. Judgements made by the management in the application of approved accounting standards that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are discussed in note 37.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.1 Cash and cash equivalents

For the purpose of cash flow statement, cash and cash equivalents comprise of cash and balances with treasury and other banks.

4.2 Revenue recognition

- i) Dividend income is recognised when the company's right to receive payment is established.
- ii) Income from loans, term finance certificates, debentures, bank deposits, government securities and reverse repo transactions is recognised under effective interest method, except where recovery is considered doubtful, the income is recognised on receipt basis.
- iii) The company follows the finance method in recognising income on lease contracts. Under this method the unearned income i.e. the excess of aggregate lease rentals and the estimated residual value over the cost of the leased asset is deferred and then amortised over the term of the lease, so as to produce a constant rate of return on net investment in the lease.
- iv) Gain on sale of securities is recognised at the time of sale of relevant securities.
- v) Advisory income is recognised as the services are rendered.

4.3 Advances including net investment in finance leases

Advances are stated net of provision for doubtful debts. Provision for doubtful debts is determined on the basis of 'Prudential Regulations' issued by the State Bank of Pakistan and charged to the profit and loss account.

Advances are written off when there are no realistic prospects of recovery.

Leases, where substantially all risks and rewards incidental to ownership of an asset are transferred to the lessee, are classified as finance lease. A receivable is recognised at an amount equal to the present value of the lease payments. The difference between the gross receivable and the present value of the receivable is recognised as unearned finance income.

4.4 Investments

The company classifies its investments other than those in subsidiaries and associates as 'Available-for-Sale', 'Held for Trading', 'Held-to-Maturity', based on the criteria set out in BSD Circular Nos. 10, 11 and 14 dated July 13, 2004, August 04, 2004 and September 24, 2004 respectively. Investments in government securities and quoted investments, categorised as 'Held for Trading' and 'Available-for-Sale' are valued at rates quoted on PKRV (Reuters Page) and market rates of Karachi Stock Exchange as at the balance sheet date respectively. Any surplus or deficit other than impairment arising as a result of revaluation of securities categorised as 'Held for Trading' is taken to profit and loss account and that of 'Available-for-Sale' is taken to the balance sheet, and shown below equity. Furthermore, investments classified as 'Held-to-Maturity' are stated at their amortised cost.

Investments in subsidiaries and associates are stated at cost less impairment in value, if any. Unquoted investments including investments in associates and subsidiaries are stated at lower of cost and break-up value based on latest available financial statements.

Impairment loss is recognised whenever the carrying amount of an investment exceeds its recoverable amount. An impairment loss is recognised in income currently. Profit and loss on sale of investments during the year is included in income currently.

Premium or discount on acquisition of government securities is amortised over the period to maturity under effective interest method.

Companies where there are common directors but the company does not have significant influence are classified as "Investment in associated undertakings". These are stated in accordance with their classification either as 'held for trading' or 'available-for-sale' securities.

4.5 Taxation

Current

The charge for current taxation is based on taxable income at the current rates of taxation after taking into account the tax credits and tax rebates available, if any and any adjustments to any tax payable relating to prior years.

Deferred

The company accounts for deferred taxation using the balance sheet liability method. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities using the tax rates enacted or substantively enacted at balance sheet date. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available and the credits will be utilised. Deferred tax asset is reduced to the extent that it is no longer probable that the related tax benefit will be realised.

4.6 Operating fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation and impairment loss (if any) except leasehold land which is stated at cost.

Depreciation is charged to profit and loss account applying the straight line method whereby the cost of an asset is written off over its estimated useful life.

Maintenance and normal repairs are charged to income as and when incurred.

Profit or loss on the sale or retirement of fixed assets is included in income currently.

4.7 Staff retirement benefits

Defined benefit plan

The company operates a funded gratuity scheme for all its eligible permanent and contractual employees. 'Projected unit credit method' has been used for actuarial valuation. Actuarial gains or losses in excess of 10% of the actuarial liability or plan assets are recognised over the expected average working life of the employees.

Defined contribution plan

The company also operates a recognised provident fund scheme for its employees. Equal monthly contributions are made, both by the company and the employees, to the fund at the rate of 10% of the basic salary.

4.8 Employees' compensated absences

Liability in respect of employees' compensated absences is recognised on the basis of actuarial valuation and is accounted for in the period in which these are earned. The actuarial valuation is carried out using 'Projected unit credit method'.

The last actuarial valuation of the employees' compensated absences was conducted as of December 31, 2008.

4.9 Derivative financial instruments

Derivative financial instruments are initially measured at fair value and subsequently remeasured at fair value. The gain or loss on remeasurement to fair value is recognised in profit and loss account.

4.10 Impairment

The carrying amount of the assets, other than deferred tax asset, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are reversed when there is an indication that impairment loss may no longer exist and there has been a change in the estimate used to determine the recoverable amount.

4.11 Foreign currency

Foreign currency transactions are recorded at the rates prevailing on the date of transactions. Monetary assets and liabilities in foreign currency are reported in Pakistan Rupees at the rates of exchange prevailing on the balance sheet date. Exchange gains and losses are included in income currently.

4.12 Off-setting of financial assets and financial liabilities

'Financial assets' and 'financial liabilities' are only offset and the net amount is reported in the balance sheet if the company has a legal right to set-off the transaction and also intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

4.13 Earnings per share

The company presents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the company by weighted average number of ordinary shares outstanding during the year.

4.14 Segment information

A segment is distinguishable component of the company that is engaged in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The company's primary format of reporting is based on business segments.

Business Segments

Following are the main segments of the company:

Corporate Finance	Includes loans, advances, leases and other transactions with corporate customers.
Treasury	Undertakes company's fund management activities through leveraging and investing in liquid assets such as short term placements, government securities and reverse repo activities. It carries out spread based activities in the inter bank market and manages the interest rate risk exposure of the company.
Capital Market	Includes trading in listed securities with a view to trade and earn the benefit of market fluctuations and to hold securities for dividend income and capital gain.
Investment Banking	Undertakes advisory services including mergers and acquisitions, listed debt syndication, trustee activities and other investment banking activities.

Geographical Segments

The company's all business segments operate only in Pakistan.

5. CASH AND BALANCES WITH TREASURY BANKS

		2008 (Rupees in '000)	2007
Cash in hand in local currency		30	30
With State Bank of Pakistan in local currency current account	5.1	16,901	24,755
With National Bank of Pakistan in local currency current account		248	64
		<u>17,179</u>	<u>24,849</u>

5.1 This includes the minimum cash reserve required to be maintained with the SBP in accordance with the requirement of BSD Circular No. 04 dated May 22, 2004.

6. BALANCES WITH OTHER BANKS

		2008 (Rupees in '000)	2007
In Pakistan			
- current account		2,971	5,492
- deposit account	6.1 & 6.2	2,755,493	5,342,738
Outside Pakistan			
- current account		894	779
- deposit account		-	-
		<u>2,759,358</u>	<u>5,349,009</u>

6.1 This includes placements of Rs. 2,700 million (2007: Rs. 5,330 million). The return on these placements ranges between 18.25 (2007: 10.2) and 22.0 (2007: 12.5) percent per annum and the placements mature between 14 days to 92 days (2007: 2 days to 83 days).

6.2 This also includes a placement in foreign currency amounting to US\$ 0.591 million (2007: Nil). The expected profit rate on this placement is 2.70 (2007: Nil) percent per annum and is due for maturity on January 01, 2009 (2007: Nil).

7. LENDINGS TO FINANCIAL INSTITUTIONS

		2008 (Rupees in '000)	2007
7.1 Repurchase agreement lendings (Reverse Repo)		-	6,555,900
Certificates of investment (COIs)			
In local currency	7.2	650,000	-
In foreign currency		-	35,684
		<u>650,000</u>	<u>35,684</u>
Provision against COI	7.3	(150,000)	-
		<u>500,000</u>	<u>6,591,584</u>

7.2 The return on these COIs ranges between 17.9 to 23 percent per annum (2007: Nil) and are due for maturity by April 02, 2009.

7.3 This represents provision against clean lending under COI to an investment bank. The lending was made on September 20, 2008 and matured on December 20, 2008. On maturity the investment bank was unable to repay the lending and the company is in the process of initiating legal proceedings for recovery of the outstanding amount. While the recovery proceedings continue, based on prudence the company has provided the amount.

7.4 Securities held as collateral against lendings to financial institutions

	2008			2007		
	Held by the company	Further given as collateral	Total	Held by the company	Further given as collateral	Total
	----- (Rupees in '000) -----					
Market treasury bills	-	-	-	3,054,287	3,451,155	6,505,442
Pakistan investment bonds	-	-	-	50,458	-	50,458
Equity shares of listed companies	-	-	-	-	-	-
	<u>-</u>	<u>-</u>	<u>-</u>	<u>3,104,745</u>	<u>3,451,155</u>	<u>6,555,900</u>

The market value of securities held as collateral amounted to Rs. Nil (2007: Rs. 6,555 million).

8. INVESTMENTS

8.1 Investments by type

Repurchase agreement borrowings	13.2.1	3,351,634	3,450,210
Term finance certificates (TFCs)	13.2.2	1,650,000	1,750,000
Borrowings from SBP under LTF-EOP	13.2.3	369,148	443,790
Unsecured			
Term finance certificates (TFCs)	13.2.4	<u>1,000,000</u>	<u>3,000,000</u>
		<u>6,370,782</u>	<u>8,644,000</u>

13.2.1 Repurchase agreement borrowings

The company has arranged borrowings from various financial institutions against sale and repurchase of government securities. The mark-up on these finances range between 11.00 (2007: 9.25) percent per annum and 14.90 (2007: 9.55) percent per annum with maturity ranging from two days (2007: three days) to six days (2007: one month).

13.2.2 Term finance certificates (non-participatory)

This represents finance obtained through issue of privately placed term finance certificates of five years maturity. The mark-up is payable on quarterly basis and the principal is repayable in five equal semi annual instalments commencing 36 months from the date of disbursement. The facility is secured by first hypothecation charge ranking pari passu, on existing and future assets of the company. The rate of profit is 3 months KIBOR ask rate plus 65 (2007: 65) basis points. As at December 31, 2008 the effective rate ranges between 15.81 and 16.15 (2007: 11.00 to 11.27) percent per annum.

13.2.3 LTF-EOP facility from SBP

In order to facilitate the export oriented projects, SBP has introduced a scheme to refinance the fixed term loan availed from Banks / DFIs.

A one time swap facility option under the Scheme (LTF - EOP) has been extended to textile sector for import of plant and machinery, allowed by the State Bank of Pakistan through their SMED Circular No. 19 of 2006. The loan is repayable over a maximum period of 7.5 years from the date of first disbursement with mark-up payable at maximum of 5 percent per annum.

The sanctioned limit was Rs. 1,000 million. The outstanding balance under swap arrangement amounts to Rs. 369.148 million as at December 31, 2008 (2007: Rs. 443.790 million).

13.2.4 Term finance certificates (non-participatory)

These represent finances obtained through issue of privately placed term finance certificates of five years maturity. The mark-up is payable semi-annually. The rate of profit is 85 (2007: 85 to 170) basis points over the cut-off yield of the last successful auction of six month T bills. As at December 31, 2008 the effective rate is 12.34 (December 31, 2007: 9.99 to 10.75) percent per annum.

14. DEPOSITS AND OTHER ACCOUNTS

At beginning of the year	2,189,653	1,523,268
Add: Transfer during the year	614,355	666,385
Add: Transfer from special reserve	80,045	-
	<u>2,884,053</u>	<u>2,189,653</u>
	<u>3,158,890</u>	<u>2,422,404</u>

16.3.2.1 Contingencies reserve

Effective December 31, 2000 the company has set up a separate 'contingencies reserve' to which an amount, equal to 1% of the outstanding balance as at the year end, of loans and advances, leases and TFCs considered good, excluding balance relating to back to back lending and financings against sovereign guarantees is appropriated from the profit.

16.3.2.2 Marketable and government securities reserve

The company has set up a separate 'marketable and government securities reserve' at a minimum of 25% of shareholders' funds to provide sufficient cushion against volatility in the value of the stock market portfolio and government securities.

	<u>(58,946)</u>	<u>41,164</u>

18. CONTINGENCIES AND COMMITMENTS

18.1 During the year ended December 31, 2005 the Income Tax Authorities finalised the assessment for the tax year 2003, raising a tax demand of Rs. 137 million on account of allocation of 'Common Expenses' relating to 'Capital Gains'. The management considers that the tax department has misinterpreted the provisions of section 67 of the Income Tax Ordinance, 2001 read with Rule 13 of the Income Tax Rules, 2002, wherein the tax authorities have allocated 'Common Expenses' including financial cost relating to 'Capital Gains' by taking into account the amount of 'Capital Gains' rather than the 'Cost of Investments'. The company therefore, filed an appeal before CIT (Appeals), who had maintained the above allocation. The company filed another appeal before Income Tax Appellate Tribunal (ITAT) who has set aside the matter with a directive to the tax authorities that the allocation of financial cost has to be made by taking into account the cost of investments rather than the gross turnover. Further, the company has made representation before the member of CBR for necessary clarification that the allocation of expenses has to be made in relation to investment cost, rather than the amount of capital gain on the sale of specific shares. Based on the above facts the company is confident that the case will be decided in its favour and the company will not be liable to taxes on capital gains on the basis used by the department.

The company has also requested CBR to refer the above matter to 'Alternate Dispute Resolution Committee' (ADRC), a mechanism available to provide an opportunity to tax payer for an easy and efficient resolution of dispute.

18.2 Other contingencies

	2008 (Rupees in '000)	2007
Direct credit substitute – guarantee issued	1,550	9,846

No. of persons	2	1	5	5	44	30

30.1 The Chief Executive and certain executives are also provided with other facilities, including the free use of company maintained car.

30.2 The compensation for 2008 includes remuneration and retirement benefits of outgoing chief executive till November 25, 2008.

31. FAIR VALUE OF FINANCIAL INSTRUMENTS

31.1 On balance sheet financial instruments

	2008		2007	
	Book value	Fair value	Book value	Fair value
----- (Rupees in '000) -----				
Financial Assets				
- Cash balances with treasury banks	17,179	17,179	24,849	24,849
- Balances with other banks	2,759,358	2,759,358	5,349,009	5,349,009
- Lendings to financial institutions	500,000	500,000	6,591,584	6,591,584
- Investments	8,436,921	10,651,191	8,074,324	11,825,801
- Advances	3,358,935	3,358,935	4,080,121	4,080,121
- Other assets	149,598	149,598	155,861	155,861
	<u>15,221,991</u>	<u>17,436,261</u>	<u>24,275,748</u>	<u>28,027,225</u>
Financial Liabilities				
- Borrowings from financial institutions	6,370,782	6,370,782	8,644,000	8,644,000
- Deposits and other accounts	37,500	37,500	1,947,500	1,947,500
- Other liabilities	274,355	274,355	397,781	397,781
	<u>6,682,637</u>	<u>6,682,637</u>	<u>10,989,281</u>	<u>10,989,281</u>

The fair value of investments in listed securities is based on market rates of the Karachi Stock Exchange. Fair value of unquoted equity investments is determined on the basis of break-up value based on the latest available financial statements.

Fair value of fixed term loans and advances, other assets, other liabilities and fixed term deposits cannot be calculated with sufficient reliability due to absence of current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments.

Key management personnel

Key management personnel include the Managing Director, Deputy General Manager, Senior Executive Vice Presidents, Chief Financial Officer and the Company Secretary. Their salaries and other benefits amount to Rs. 51.990 million (2007: Rs. 73.928 million) and staff retirement benefits amount to Rs. 3.176 million (2007: Rs. 3.259 million).

34. ASSOCIATES AND ASSOCIATED UNDERTAKINGS

The investments in associates are valued as stated in note 4.4 above. The company's associates are those companies in which it holds more than 20% of the equity or have common directorship and have significant influence includes, Al-Meezan Mutual Fund Limited, Al-Meezan Investment Management Limited, Meezan Bank Limited, The General Tyre and Rubber Company of Pakistan Limited, Plexus (Private) Limited, Falcon Greenwood (Private) Limited, Pak Kuwait Takaful Company Limited, National Clearing Company of Pakistan Limited in which company's direct percentage of holdings are 12, 30, 30, 28, 50, 25, 30 and 18 respectively. The company also holds units in Meezan Balance Fund and Meezan Islamic Income Fund.

35. CAPITAL ADEQUACY

35.1 The company's objectives when managing its capital are:

- To comply with the capital requirements set by the State Bank of Pakistan;
- To safeguard the company's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- To maintain a strong capital base to support the development of its business.

Capital adequacy and the use of regulatory capital are monitored regularly by the company's management, employing techniques based on the guidelines developed by the Basel Committee, as implemented by the State Bank of Pakistan. In implementing current capital requirements, SBP requires to maintain a prescribed ratio of 9% total capital to total risk-weighted assets on standalone as well as on consolidated basis using the Standardized approach of Basel-II. The Company maintains a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

The Company's regulatory capital is analyzed in following tiers:

- Tier 1 Capital which includes fully paid up capital, general reserves as disclosed in the financial statements and un-appropriated profits, etc. after deductions for deficit on revaluation of available for sale investments and 50% deduction for investments in the equity of subsidiary companies and significant minority investment entities engaged in banking and financial activities.
- Tier 2 Capital, which includes reserve on revaluation of equity investments upto a maximum of 45% of the balance after 50% deduction for investments in the equity of subsidiary companies and significant minority investments in entities engaged in banking and financial activities.

According to SBP guidelines on Internal Capital Adequacy Assessment Process (ICAAP), the Company also intends to implement ICAAP. The company will develop policies and methodologies to monitor and manage risk covered in Pillar-II of Basel II and to meet the challenges of ICAAP.

36. RISK MANAGEMENT

Risk taking is central to all financing activities. The Company evaluates business opportunities in terms of the risk-reward relationship. The risk that company takes are reasonable, controlled within its financial resources and credit competence.

The following key principles form part of our approach to risk management:

- The Board through its subcommittee reviews and approves risk policies and tolerance limit whenever required.
- Various committees at functional level oversee the implementation of risk management policies.
- Market and Liquidity Risk are managed by a well-represented Asset Liability Committee (ALCO). And the Credit Committee oversees Credit Risk.
- The Risk Management function acts independently.

The risk management framework is based on prudent risk, measurement monitoring and management process which are closely aligned with all activities so as to ensure that risks are kept with an acceptable level.

36.1 Credit risk

Credit Risk is the risk of loss due to the failure of a borrower to meet its credit obligations in accordance with agreed contract terms. Company's Credit process is guided by centrally established credit policies, rules and guidelines continuing to close to the market approach with aim to maintain a well-diversified portfolio of credit risk who produces a reliable and consistent return.

Company has a system of checks and balances in place around the extension of credit that are:

- an independent risk management function.
- multiple credit approvers
- an internal audit function

Silent features of risk approval process as follows:

- Every extension of credit to any counter party requires approval by pre-defined level of authority.
- All business groups must apply consistent standards in arriving at their credit decisions.
- Every material change to a credit facility requires approval at the appropriate / pre-defined level.

The company is using Basel II standardized approach to calculate risk weighted assets against credit risk.

The company performs stress testing on its credit portfolio according to SBP stress testing guidelines.

The disbursement, administration and monitoring of credit facilities is managed by Credit Administration Department (CAD) linked to various business units.

The company monitors its credit portfolio on continuing basis. Procedures are in place to identify at an early stage, credit exposure for which there may be a risk of loss.

36.1.1 Segment by class of business

	2008

36.2 Liquidity risk

Liquidity Risk is the risk that the company is unable to fund its current obligations and operations in the most cost effective manner.

To limit this risk the company maintains statutory deposits with the central bank. In addition, ALCO is the forum to oversee liquidity management. The company's key funding source is the inter-bank money market. Change in government monetary policy and market expectations of interest rate are the factors that can affect the company's key funding source.

Comprehensive gap analysis is done on monthly basis to evaluate match / mismatch of assets and liabilities. Based on the results, ALCO devise the liquidity management strategy to maintain sufficient liquidity.

36.3 Market risk

It is the risk that the value of on and off - balance sheet positions of a financial institution will be adversely affected by movements in market variables, such as interest rates, foreign exchange rates, equity prices and credit spreads.

PKIC is exposed to interest risk and equity price risk. Market Risk at PKIC is managed by the Risk Management Function which makes sure that exposure in Money Market and Equity Market adheres with the risk tolerance level and matches with overall business goals set by Board of Directors (BOD), Risk Management Committee (RMC) and Asset Liability Committee (ALCO).

Market Risk pertaining to the Trading Book consists of positions in financial instruments held either with trading intent or in order to hedge other elements of the trading book. The trading book includes equity securities classified as "Held for Trading". These positions are actively managed by the capital market department.

All investments excluding trading book are considered as part of banking book. Banking book includes:

- Available for Sale Securities
- Held to Maturity Securities
- Other Strategic Investment
- Investment in Government Securities, Bonds etc.

Due to diversified nature of investments in banking book, it is subject to interest rate risk and equity price risk.

The company is using Basel-II Standardized approach to calculate risk weighted assets against market risk exposure.

36.3.1 Interest rate risk

Interest rate risk arises when there is a mismatch between positions, which are subject to interest rate adjustment within a specific period. The company manages its interest rate risk by entering into floating rate agreements with its customers. To discuss the interest rate risk strategy ALCO conducts a meeting on monthly basis. The risk management function carries out stress testing to ascertain the interest rate risk on the balance sheet and also prepares the interest rate risk profile on monthly basis.

36.3.2 Currency risk

Foreign exchange risk arises in case of an on balance sheet / off balance sheet asset or liability position when there is adverse exchange rate movement. The company's exposure to this category of market risk is negligible.

	2008

	24,405,616	11,413,856	-	12,991,760

36.3.3 Equity price risk

It is the risk to earnings or capital that results from adverse changes in the value/price of equity related portfolios.

The Equity Portfolio Strategic Committee (EPSC) approves exposure limits applicable to investments and meets on regular basis to discuss equity investments related strategy. EPSC is responsible for making investments decisions in the capital market and setting limits that are a component of the risk management framework. Portfolio, Sector and Scrip wise limits are assigned by the EPSC to guard against concentration risk and these limits are reviewed and revised periodically. Risk management function ensures compliance of portfolio, sector and scrip wise limits set by EPSC and regulatory authority.

36.4 Operational risk

Operational risk is the risk of loss resulting from inadequate or failed internal process, people and system of form external events.

The Company is using Basic Indicator Approach to calculate Operational risk weighted assets as per Basel II requirements for capital adequacy calculation.

37. ACCOUNTING ESTIMATES AND JUDGEMENTS

37.1 Provision against non-performing advances

The management reviews the loan and lease portfolio to assess non-performing accounts and expected recovery on a quarterly basis. In determining the non-performing accounts and provision requirements, the relevant Prudential Regulations issued by the State Bank of Pakistan, payment status of mark-up and principal, expected future cash flows of the business, security position and personal wealth of the directors and owners are taken into account.

37.2 Classification of investments

In classifying investments as 'held-for-trading' the company has determined securities which are acquired with the intention to trade by taking advantage of taking short term market / interest rate movements and are to be sold within 90 days.

In classifying investments as 'held-to-maturity' the company follows the guidance provided in SBP circulars on classifying non derivative financial assets with fixed or determinable payments and fixed maturity. In making this judgement, the company evaluates its intention and ability to hold such investment to maturity.

The investments which are not classified as 'held for trading' or 'held to maturity' are classified as 'available-for-sale'.

37.3 Impairment of 'available-for-sale' equity instruments

The management determines that 'available-for-sale' equity investments are impaired when there has been a significant or prolonged decline in market value / fair value below its cost. In making this judgement, the management considers among other factors, the decline in market price below cost by 30% as significant and if the decline in market price persists for 9 months as prolonged.

37.4 Valuation of equity instruments

On 26 August 2008 a floor was placed on the Karachi Stock Exchange Index and the trading volume reduced significantly. The floor was removed effective 15 December 2008, but due to lock mechanism in place, there were lower locks on a sale of shares and in certain shares the trading has not commenced. The equity securities have been valued at prices quoted on the KSE on December 31, 2008 without any adjustment as allowed by the State Bank of Pakistan BSD Circular Letter No. 2 dated January 27, 2009.

37.5 Income taxes

In making the estimates for income taxes currently payable by the company, the management looks at the current income tax laws and the decisions of appellate authorities on certain issues as described in note 18 and the appeals of the department pending at various levels of authorities.

37.6 Gratuity

The company has adopted certain actuarial assumptions as disclosed in note 29.1.1 to the financial statements for determining present value of defined benefit obligations and fair value of plan assets, based on actuarial advice. Any change in the assumptions from actual results would change the amount of unrecognised gains and losses.

38. NON ADJUSTING EVENT AFTER THE BALANCE SHEET DATE

The Board of Directors of the company in a meeting held subsequent to year end have decided to transfer Rs.274.837 million from contingencies reserves and Rs. 2,884.053 million from marketable and government securities reserves to accumulated loss. Accordingly, the accumulated loss would be reduced to Rs. 920.295 million after the transfer.

39. DATE OF AUTHORISATION FOR ISSUE

These financial statements were authorised for issue in the Board of Directors meeting held on March 05, 2009.

40. GENERAL

The JCR-VIS Credit Rating Company Limited has maintained long term credit rating of AAA (Triple A) and the short term rating of A1+(A one plus) for the company. The Pakistan Credit Rating Agency (PACRA) has made an adjustment in the long-term entity rating to AA+, while maintained the short term rating at A1+ (A one plus).

Consolidated Financial Statements

For the year ended
December 31, 2008

Auditors' Report to the Members

We have audited the annexed consolidated financial statements of Pakistan Kuwait Investment Company (Private) Limited comprising consolidated balance sheet as at December 31, 2008 and the related consolidated profit and loss account, consolidated cash flow statement and consolidated statement of changes in equity together with the notes forming part thereof, (here-in-after referred to as the 'financial statements') for the year then ended. The financial statements of subsidiary company Pakistan Kuwait Financial Services Limited were reviewed by other firm of chartered accountants whose review report has been submitted to us and our opinion, in so far as it relates to the amount included for such company, is based solely on the report of such auditor.

These financial statements are responsibility of the company's management. Our responsibility is to express our opinion on these financial statements based on our audit.

We conducted our audit in accordance with the auditing standards as applicable in Pakistan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the above said statements are free of any material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the above said statements. An audit also includes assessing the accounting policies and significant estimates made by management, as well as, evaluating the overall presentation of the above said statements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion the consolidated financial statements present fairly the financial position of Pakistan Kuwait Investment Company (Private) Limited as at December 31, 2008 and the results of its operations, its cash flows and changes in equity for the year then ended in accordance with the approved accounting standards as applicable in Pakistan.

Notes to and Forming Part of the Consolidated Financial Statements

For the year ended December 31, 2008

1. STATUS AND NATURE OF BUSINESS

Pakistan Kuwait Investment Company (Private) Limited (Pak Kuwait) ('the holding company') was incorporated in Pakistan as a Private Limited company on March 17, 1979. The registered office is situated at 4th Floor, Block 'C', Finance and Trade Centre, Shahrah-e-Faisal, Karachi. The company is a 50:50 joint venture between the Governments of Pakistan and Kuwait. The objective of the company is to profitably promote industrial investments in Pakistan.

The Group comprises of the holding company and two 100% owned subsidiaries First Choice Securities Limited (FCSL) and Pak Kuwait Financial Services Limited (PKFSL). FCSL is principally engaged in the business of equity brokerage, money markets and foreign exchange brokerage, equity research and corporate financial advisory services. The principal business of PKFSL is to provide Asset Management Services. Both FCSL and PKFSL have not started their operations.

The Group's associates are as follows:

Entity / Fund	Nature of Business	2008	2007
		Percentage holding	
Meezan Bank Limited (MBL)	Scheduled Islamic Commercial Bank engaged in commercial, consumer and investment banking activities	30.00	30.00

All of the associates are incorporated in Pakistan.

*These have been treated as associates due to company's representation on their Board of Directors.

2. STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Companies Ordinance, 1984 and the directives issued by the State Bank of Pakistan (SBP). In case requirements differ, the provisions of and directives issued under the Companies Ordinance, 1984 and the directives issued by the SBP shall prevail.

The SBP through its BSD Circular letter No. 11 dated September 11, 2002 has deferred the implementation of IAS 39 'Financial Instruments: Recognition and Measurement' and IAS 40 'Investment Property' for Non-Banking Financial Institutions (NBFI) in Pakistan. Accordingly, the requirements of these International Accounting Standards (IASs) and their respective interpretations issued by International Financial Reporting Interpretations Committee (IFRIC) and Standing Interpretations Committee (SIC), have not been considered in preparation of these financial statements.

2.1 Forthcoming accounting changes

The following standards, interpretations and amendments of approved accounting standards are effective for accounting periods beginning from the dates specified below.

Revised IAS 1 - Presentation of financial statements (effective for annual periods beginning on or after 1 January 2009) introduces the term total comprehensive income, which represents changes in equity during a period other than those changes resulting from transactions with owners in their capacity as owners. Total comprehensive income may be presented in either a single statement of comprehensive income (effectively combining both the income statement and all non-owner changes in equity in a single statement), or in an income statement and a separate statement of comprehensive income. This change will be affected after directions from regulator.

Revised IAS 23 - Borrowing costs (effective for annual periods beginning on or after 1 January 2009) removes the option to expense borrowing costs and requires that an entity capitalize borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset. The application of the standard is not likely to have an effect on the Group's financial statements.

Revised IAS 29 - Financial Reporting in Hyperinflationary Economies (effective for annual periods beginning on or after 28 April 2008). The Group does not have any operations in Hyperinflationary Economies and therefore the standard is not relevant to Group's operations.

Amendments to IAS 32 Financial Instruments: Presentation and IAS 1 Presentation of Financial Statements (effective

for annual periods beginning on or after 1 January, 2009) - Puttable Financial Instruments and Obligations Arising on Liquidation requires puttable instruments, and instruments that impose on the entity an obligation to deliver to another party a pro rata share of the net assets of the entity only on liquidation, to be classified as equity if certain conditions are met. The amendments, which require retrospective application, are not expected to have any impact on the Group's financial statements.

Amendment to IFRS 2 Share-based Payment - Vesting Conditions and Cancellations (effective for annual periods beginning on or after 1 January, 2009) clarifies the definition of vesting conditions, introduces the concept of non-vesting conditions, requires non-vesting conditions to be reflected in grant-date fair value and provides the accounting treatment for non-vesting conditions and cancellations. The application of this standard is not likely to have any effect on the Group's financial statements.

Revised IFRS 3 Business Combinations (applicable for annual periods beginning on or after 1 July, 2009) broadens among other things the definition of business resulting in more acquisitions being treated as business combinations, contingent consideration to be measured at fair value, transaction costs other than share and debt issue costs to be expensed, any pre-existing interest in an acquiree to be measured at either fair value, or at its proportionate interest in the identifiable assets and liabilities of an acquiree on a transaction-by-transaction basis. The application of this standard is not likely to have an effect on the Group's financial statements.

Amended IAS 27 Consolidated and Separate Financial Statements (effective for annual periods beginning on or after 1 July, 2009) requires accounting for changes in ownership interest by the group in a subsidiary, while maintaining control, to be recognized as an equity transaction. When the group loses control of a subsidiary, any interest retained in the former subsidiary will be measured at fair value with the gain or loss recognized in the profit or loss. The application of the standard is not likely to have an effect on the Group's financial statements.

IFRS 7 - Financial Instruments: Disclosures (effective for annual periods beginning on or after 28 April, 2008) supersedes IAS 30 - Disclosures in the Financial Statements of Banks and Similar Financial Institutions and the disclosure requirements of IAS 32 - Financial Instruments: Disclosure and Presentation. The application of the standard is not expected to have significant impact on the Group's financial statements other than increase in disclosures.

IFRS 8 - Operating Segments (effective for annual periods beginning on or after 1 January, 2009) introduces the "management approach" to segment reporting. IFRS 8 will require a change in the presentation and disclosure of segment information based on the internal reports that are regularly reviewed by the Group's "chief operating decision maker" in order to assess each segment's performance and to allocate resources to them. Currently the Group presents segment information in respect of its business and geographical segments. This standard will have no effect on the Group's reported total profit or loss or equity.

IFRIC 13 - Customer Loyalty Programmes (effective for annual periods beginning on or after 1 July, 2008) addresses the accounting by entities that operate or otherwise participate in customer loyalty programmes under which the customer can redeem credits for awards such as free or discounted goods or services. The IFRIC 13 is not relevant to Group's operations.

IFRIC 15 - Agreement for the Construction of Real Estate (effective for annual periods beginning on or after 1 October, 2009) clarifies the recognition of revenue by real estate developers for sale of units, such as apartments or houses, 'off-plan', that is, before construction is complete. The amendment is not relevant to the Group's operations.

IFRIC 16 - Hedge of Net Investment in a Foreign Operation (effective for annual periods beginning on or after 1 October, 2009) clarifies that net investment hedging can be applied only to foreign exchange differences arising between the functional currency of a foreign operation and the parent entity's functional currency and only in an amount equal to or less than the net assets of the foreign operation, the hedging instrument may be held by any entity within the group except the foreign operation that is being hedged and that on disposal of a hedged operation, the cumulative gain or loss on the hedging instrument that was determined to be effective is reclassified to the profit or loss. The Interpretation allows an entity that used the step-by-step method of consolidation an accounting policy choice to determine the cumulative currency translation adjustment that is reclassified to profit or loss on disposal of a net investment as if the direct method of consolidation had been used. The amendment is not relevant to the Group's operations.

The International Accounting Standards Board made certain amendments to existing standards as part of its first annual improvements project. The effective dates for these amendments vary by standard and most will be applicable to the Group's 2009 financial statements. These amendments are unlikely to have an impact on the Group's financial statements.

IAS 27 'Consolidated and separate financial statements' (effective for annual periods beginning on or after 1 January, 2009). The amendment removes the definition of the cost method from IAS 27 and replaces it with a requirement to present dividends as income in the separate financial statements of the investor. The amendment is not likely to have an effect on Group's financial statements.

IFRIC 17 - Distributions on Non-cash Assets to Owners (effective for annual periods beginning on or after 1 July, 2009) states that when a group distributes non cash assets to its shareholders as dividend the liability for the dividend is measured at fair value. If there are subsequent changes in the fair value before the liability is discharged, this is recognized in equity. When the non cash asset is distributed, the difference between the carrying amount as fair value is recognized in the income statement. As the Group does not distribute non cash assets to its shareholders, this interpretation has no impact on the Group's financial statements.

IFRS 5 Amendment - Improvements to IFRSs - IFRS 5 Non-Current Assets Held for Sale and Discounted Operations (effective for annual periods beginning on or after 1 July, 2009) specify that: if an entity is committed to a sale plan involving the loss of control of a subsidiary, then it would classify all of that subsidiary's assets and liabilities as held for sale when the held for sale criteria in paragraphs 6 to 8 of IFRS 5 are met. Disclosures for discontinued operations would be required by the parent when a subsidiary meets the definition of a discontinued operation. The amendment is not likely to have an effect on Group's financial statements.

3. BASIS OF PRESENTATION

3.1 Basis of measurement

These financial statements have been prepared on the historical cost basis as modified for revaluation of certain investments at market rates in accordance with the requirements of BSD Circular No. 10 dated July 13, 2004 as amended through BSD Circular No. 11 dated August 04, 2004 and BSD Circular No. 14 dated September 24, 2004.

3.2 Functional and presentation currency

The financial statements are presented in Pakistan Rupees which is group's functional currency. The amounts are rounded to nearest thousand rupees.

3.3 Use of accounting estimates and judgements

The preparation of financial statements in conformity with approved accounting standards requires management to make judgements, estimates and assumptions that affect the application of policies and reported amount of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form basis of making the judgements about carrying values of assets and liabilities which are not readily apparent from other sources. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of its revision and future periods if the revision affects both current and future periods. Judgements made by the management in the application of approved accounting standards that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are discussed in note 37.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.1 Basis of Consolidation

4.1.1 Subsidiaries

Subsidiaries are entities controlled by the Group. Control exists when the Group has the power to govern the financial and operating policies of an entity so as to obtain economic benefits from its activities. This in general is evidenced when the company directly or indirectly controls, beneficially owns or holds more than 50 percent of the voting securities or otherwise has power to elect and appoint more than 50 percent of its directors. The financial statements of the subsidiaries are included in the consolidated financial statements from the date the control commences until the date the control ceases.

4.1.2 Associates

Associates are those entities in which the Group has significant influence, but does not have control, over the financial and operating policies. The consolidated financial statements include the Group's share of the total recognized gains and losses of associates on an equity accounting basis, from the date significant influence commences until the date that significant influence ceases. When the Group's share of losses exceeds its interest

in an associate, the Group's carrying amount is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligation.

4.1.3 Transactions eliminated on consolidation

Intra group balances and any unrealized gains and losses or income and expenses arising from intra group transactions are eliminated in preparing consolidated financial statements.

4.2 Cash and cash equivalents

For the purpose of cash flow statement, cash and cash equivalents comprise of cash and balances with treasury and other banks.

4.3 Revenue recognition

- i) Dividend income is recognised when the company's right to receive payment is established.
- ii) Income from loans, term finance certificates, debentures, bank deposits, government securities and reverse repo transactions is recognised under effective interest method, except where recovery is considered doubtful, the income is recognised on receipt basis.
- iii) The company follows the finance method in recognising income on lease contracts. Under this method the unearned income i.e. the excess of aggregate lease rentals and the estimated residual value over the cost of the leased asset is deferred and then amortised over the term of the lease, so as to produce a constant rate of return on net investment in the lease.
- iv) Gain on sale of securities is recognised at the time of sale of relevant securities.
- v) Advisory income is recognised as the services are rendered.
- vi) Brokerage, commission, advisory fees and other income of FCSL are accrued as and when due. Interest income is recognised on a time proportion basis taking into account effective yield on the asset.

4.4 Advances including net investment in finance leases

Advances are stated net of provision for doubtful debts. Provision for doubtful debts is determined on the basis of 'Prudential Regulations' issued by the State Bank of Pakistan and charged to the profit and loss account. Advances are written off when there are no realistic prospects of recovery.

Leases, where substantially all risks and rewards incidental to ownership of an asset are transferred to the lessee, are classified as finance lease. A receivable is recognised at an amount equal to the present value of the lease payments. The difference between the gross receivable and the present value of the receivable is recognised as unearned finance income.

4.5 Investments

The company classifies its investments other than those in associates as 'Available-for-Sale', 'Held for Trading', 'Held-to-Maturity', based on the criteria set out in BSD Circular Nos. 10, 11 and 14 dated July 13, 2004, August 04, 2004 and September 24, 2004 respectively. Investments in government securities and quoted investments, categorised as 'Held for Trading' and 'Available-for-Sale' are valued at rates quoted on PKRV (Reuters Page) and market rates of Karachi Stock Exchange as at the balance sheet date respectively. Any surplus or deficit other than impairment arising as a result of revaluation of securities categorised as 'Held for Trading' is taken to profit and loss account and that of 'Available-for-Sale' is taken to the balance sheet, and shown below equity. Furthermore, investments classified as 'Held-to-Maturity' are stated at their amortised cost.

Unquoted investments are stated at lower of cost and break-up value based on latest available financial statements.

Impairment loss is recognised whenever the carrying amount of an investment exceeds its recoverable amount. An impairment loss is recognised in income currently. Profit and loss on sale of investments during the year is included in income currently.

Premium or discount on acquisition of government securities is amortised over the period to maturity under effective interest method.

Companies where there are common directors but the company does not have significant influence are classified as "Investment in associated undertakings". These are stated in accordance with their classification either as 'held for trading' or 'available-for-sale' securities.

4.6 Taxation

Current

The charge for current taxation is based on taxable income at the current rates of taxation after taking into account the tax credits and tax rebates available, if any and any adjustments to any tax payable relating to prior years.

Deferred

The company accounts for deferred taxation using the balance sheet liability method. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities using the tax rates enacted or substantively enacted at balance sheet date. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available and the credits will be utilised. Deferred tax asset is reduced to the extent that it is no longer probable that the related tax benefit will be realised.

4.7 Intangible assets

Intangible assets comprising of membership card of Karachi Stock Exchange (Guarantee) Limited and National Commodity Exchange Limited are stated at cost less impairment in value, if any. These are not amortised as they are expected to have an indefinite life.

4.8 Operating fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation and impairment loss (if any) except leasehold land which is stated at cost.

Depreciation is charged to profit and loss account applying the straight line method whereby the cost of an asset is written off over its estimated useful life.

Maintenance and normal repairs are charged to income as and when incurred.

Profit or loss on the sale or retirement of fixed assets is included in income currently.

4.9 Staff retirement benefits

Defined benefit plan

The company operates a funded gratuity scheme for all its eligible permanent and contractual employees. 'Projected unit credit method' has been used for actuarial valuation. Actuarial gains or losses in excess of 10% of the actuarial liability or plan assets are recognised over the expected average working life of the employees.

Defined contribution plan

The company also operates a recognised provident fund scheme for its employees. Equal monthly contributions are made, both by the company and the employees, to the fund at the rate of 10% of the basic salary.

4.10 Employees' compensated absences

Liability in respect of employees' compensated absences is recognised on the basis of actuarial valuation and is accounted for in the period in which these are earned. The actuarial valuation is carried out using 'Projected unit credit method'.

The last actuarial valuation of the employees' compensated absences was conducted as of December 31, 2008.

4.11 Derivative financial instruments

Derivative financial instruments are initially measured at fair value and subsequently remeasured at fair value. The gain or loss on remeasurement to fair value is recognised in profit and loss account.

4.12 Impairment

The carrying amount of the assets, other than deferred tax asset, are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are reversed when there is an indication that impairment loss may no longer exist and there has been a change in the estimate used to determine the recoverable amount.

4.13 Foreign currency

Foreign currency transactions are recorded at the rates prevailing on the date of transactions. Monetary assets and liabilities in foreign currency are reported in Pakistan Rupees at the rates of exchange prevailing on the balance sheet date. Exchange gains and losses are included in income currently.

4.14 Off-setting of financial assets and financial liabilities

'Financial assets' and 'financial liabilities' are only offset and the net amount is reported in the balance sheet if the company has a legal right to set-off the transaction and also intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

4.15 Earnings per share

The company presents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the company by weighted average number of ordinary shares outstanding during the year.

4.16 Segment information

A segment is distinguishable component of the company that is engaged in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The company's primary format of reporting is based on business segments.

Business Segments

Following are the main segments of the company:

Corporate Finance	Includes loans, advances, leases and other transactions with corporate customers.
Treasury	Undertakes company's fund management activities through leveraging and investing in liquid assets such as short term placements, government securities and reverse repo activities. It carries out spread based activities in the inter bank market and manages the interest rate risk exposure of the company.
Capital Market	Includes trading in listed securities with a view to trade and earn the benefit of market fluctuations and to hold securities for dividend income and capital gain.
Investment Banking	Undertakes advisory services including mergers and acquisitions, listed debt syndication, trustee activities and other investment banking activities.

Geographical Segments

The company's all business segments operate only in Pakistan.

5. CASH AND BALANCES WITH TREASURY BANKS

		2008	2007
(Rupees in '000)			
Cash in hand in local currency		30	50
With State Bank of Pakistan in local currency current account	5.1	16,901	24,755
With National Bank of Pakistan in local currency current account		248	64
		<u>17,179</u>	<u>24,869</u>

5.1 This includes the minimum cash reserve required to be maintained with the SBP in accordance with the requirement of BSD Circular No. 04 dated May 22, 2004.

6. BALANCES WITH OTHER BANKS

		2008	2007
(Rupees in '000)			
In Pakistan			
- current account		2,971	5,492
- deposit account	6.1 & 6.2	2,797,237	5,357,299
Outside Pakistan			
- current account		894	779
- deposit account		-	-
		<u>2,801,102</u>	<u>5,363,570</u>

6.1 This includes placements of Rs. 2,700 million (2007: Rs. 5,330 million). The return on these placements ranges between 18.25 (2007: 10.2) and 22.0 (2007: 12.5) percent per annum and the placements mature between 14 days to 92 days (2007: 2 days to 83 days).

6.2 This also includes a placements in foreign currency amounting to US\$ 0.591 million (2007: Nil). The expected profit rate on this placement is 2.70 (2007: Nil) percent per annum and is due for maturity on January 01, 2009 (2007: Nil).

7. LENDINGS TO FINANCIAL INSTITUTIONS

		2008	2007
(Rupees in '000)			
7.1 Repurchase agreement lendings (Reverse Repo)		-	6,555,900
Certificates of investment (COIs)			
In local currency	7.2	650,000	-
In foreign currency		-	35,684
		<u>650,000</u>	<u>35,684</u>
Provision against COI	7.3	(150,000)	-
		<u>500,000</u>	<u>6,591,584</u>

7.2 The return on these COIs ranges between 17.9 to 23 percent per annum (2007: Nil) and is due for maturity by April 02, 2009.

7.3 This represents provision against clean lending under COI to an investment bank. The lending was made on September 20, 2008 and matured on December 20, 2008. On maturity the investment bank was unable to repay the lending and the company is in the process of initiating legal proceedings for recovery of the outstanding amount. While the recovery proceedings continue, based on prudence the company has provided the amount.

7.4 Securities held as collateral against lendings to financial institutions

	2008			2007		
	Held by the company	Further given as collateral	Total	Held by the company	Further given as collateral	Total
(Rupees in '000)

Term finance certificates (TFCs)	14.2.4 1,000,000	3,000,000
	<u>6,370,782</u>	<u>8,644,000</u>

14.2.1 Repurchase agreement borrowings

The company has arranged borrowings from various financial institutions against sale and repurchase of government securities. The mark-up on these finances range between 11.00 (2007:9.25) percent per annum and 14.90 (2007: 9.55) percent per annum with maturity ranging from two days (2007: three days) to six days (2007: one months).

14.2.2 Term finance certificates (non-participatory)

This represents finance obtained through issue of privately placed term finance certificates of five years maturity. The mark-up is payable on quarterly basis and the principal is repayable in five equal semi annual instalments commencing 36 months from the date of disbursement.

The facility is secured by first hypothecation charge ranking pari passu, on existing and future assets of the company. The rate of profit is 3 months KIBOR ask rate plus 65 (2007: 65) basis points. As at December 31, 2008 the effective rate ranges between 15.81 and 16.15 (2007: 11.00 to 11.27) percent per annum.

14.2.3 LTF-EOP facility from SBP

In order to facilitate the export oriented projects, SBP has introduced a scheme to refinance the fixed term loan availed from Banks / DFIs.

A one time swap facility option under the Scheme (LTF - EOP) has been extended to textile sector for import of plant and machinery, allowed by the State Bank of Pakistan through their SMED Circular No. 19 of 2006. The loan is repayable over a maximum period of 7.5 years from the date of first disbursement with mark-up payable at maximum of 5 percent per annum.

The sanctioned limit was Rs. 1,000 million. The outstanding balance under swap arrangement amounts to Rs 369.148 million as at December 31, 2008 (2007: Rs 443.790 million).

14.2.4 Term finance certificates (non-participatory)

These represent finances obtained through issue of privately placed term finance certificates of five years maturity. The mark-up is payable semi-annually. The rate of profit 85 (2007: 85 to 170) basis points over the cut-off yield of the last successful auction of six month T bills.

As at December 2008 the effective rate is 12.34 (December 31, 2007: 9.99 to 10.75) percent per annum.

15. DEPOSITS AND OTHER ACCOUNTS

	2008 (Rupees in '000)	2007 (Rupees in '000)

Share of surplus on revaluation of securities held by associates	-	37,033
	<u>(58,857)</u>	<u>78,267</u>

19. CONTINGENCIES AND COMMITMENTS

- 19.1 During the year ended December 31, 2005 the Income Tax Authorities finalised the assessment for the tax year 2003, raising a tax demand of Rs. 137 million on account of allocation of 'Common Expenses' relating to 'Capital Gains'. The management considers that the tax department has misinterpreted the provisions of section 67 of the Income Tax Ordinance, 2001 read with Rule 13 of the Income Tax Rules, 2002, wherein the tax authorities have allocated 'Common Expenses' including financial cost relating to 'Capital Gains' by taking into account the amount of 'Capital Gains' rather than the 'Cost of Investments'. The company therefore, filed an appeal before CIT (Appeals), who had maintained the above allocation. The company filed another appeal before Income Tax Appellate Tribunal (ITAT) who has set aside the matter with a directive to the tax authorities that the allocation of financial cost has to be made by taking into account the cost of investments rather than the gross turnover. Further the company has made representation before the member of CBR for necessary clarification that the allocation of expenses has to be made in relation to investment cost, rather than the amount of capital gain on the sale of specific shares. Based on the above facts the company is confident that the case will be decided in its favour and the company will not be liable to taxes on capital gains on the basis used by the department.

The company has also requested CBR to refer the above matter to 'Alternate Dispute Resolution Committee' (ADRC), a mechanism available to provide an opportunity to tax payer for an easy and efficient resolution of dispute.

	(Rupees in '000)					
Fee	-	-	3,530	2,380	-	-
Managerial remuneration	19,395	33,304	-	-	55,228	78,963
Charge for defined benefit plan	652	656	-	-	3,393	2,270
Contribution to defined contribution plan	782	787	-	-	4,409	2,352
Rent and house maintenance	4,130	3,637	-	-	24,852	15,595
Utilities	142	175	-	-	5,523	3,465
Medical	198	715	-	-	4,009	2,826
Others	12,896	6,778	-	5,775	-	-
	<u>38,195</u>	<u>46,052</u>	<u>3,530</u>	<u>8,155</u>	<u>97,414</u>	<u>105,471</u>
No. of persons	<u>2</u>	<u>1</u>	<u>5</u>	<u>5</u>	<u>44</u>	<u>30</u>

31.1 The Chief Executive and certain executives are also provided with other facilities, including the free use of company maintained car.

31.2 The compensation charges for 2008 includes remuneration and retirement benefits of outgoing chief executive till November 25, 2008.

32. FAIR VALUE OF FINANCIAL INSTRUMENTS

32.1 On balance sheet financial instruments

	2008		2007	
	Book value	Fair value	Book value	Fair value
	(Rupees in '000)			
Financial Assets				
- Cash balances with treasury banks	17,179	17,179	24,869	24,869
- Balances with other banks	2,801,102	2,801,102	5,363,570	5,363,570
- Lendings to financial institutions	500,000	500,000	6,591,584	6,591,584
- Investments	9,417,329	11,631,599	9,488,136	13,239,613
- Advances	3,358,935	3,358,935	4,080,121	4,080,121
- Other assets	149,960	149,960	157,135	157,135
	<u>16,244,505</u>	<u>18,458,775</u>	<u>25,705,415</u>	<u>29,456,892</u>
Financial Liabilities				
- Borrowings from financial institutions	6,370,782	6,370,782	8,644,000	8,644,000
- Deposits and other accounts	37,500	37,500	1,947,500	1,947,500
- Other liabilities	276,144	276,144	645,499	645,499
	<u>6,684,426</u>	<u>6,684,426</u>	<u>11,236,999</u>	<u>11,236,999</u>

The fair value of investments in listed securities is based on market rates of the Karachi Stock Exchange. Fair value of unquoted equity investments is determined on the basis of break-up value based on the latest available financial statements.

Fair value of fixed term loans and advances, other assets, other liabilities and fixed term deposits cannot be calculated with sufficient reliability due to absence of current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments.

Key management personnel

Key management personnel include the Managing Director, Deputy General Manager, Senior Executive Vice Presidents, Chief Financial Officer and the Company Secretary. Their salaries and other benefits amount to Rs. 51.990 million (2007: Rs. 73.928 million) and staff retirement benefits amount to Rs. 3.176 million (2007: Rs. 3.259 million).

35. CAPITAL ADEQUACY

35.1 The company's objectives when managing its capital are:

- To comply with the capital requirements set by the State Bank of Pakistan;
- To safeguard the company's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- To maintain a strong capital base to support the development of its business.

Capital adequacy and the use of regulatory capital are monitored regularly by the company's management, employing techniques based on the guidelines developed by the Basel Committee, as implemented by the State Bank of Pakistan. In implementing current capital requirements, SBP requires to maintain a prescribed ratio of 9% total capital to total risk-weighted assets on standalone as well as on consolidated basis using the Standardized approach of Basel-II.

The Company maintains a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

The Company regulatory capital is analyzed in following tiers:

- Tier 1 Capital, which includes fully paid up capital, general reserves as disclosed in the financial statements and un-appropriated profits, etc., after deductions for deficit on revaluation of available for sale investments and 50% deduction for investments in the equity of subsidiary companies and significant minority investment entities engaged in banking and financial activities.
- Tier 2 Capital, which includes reserve on revaluation of equity investments upto a maximum of 45% of the balance after 50% deduction for investments in the equity of subsidiary companies and significant minority investments in entities engaged in banking and financial activities.

According to SBP guidelines on Internal Capital Adequacy Assessment Process (ICAAP), the Company also intends to implement ICAAP. The company will develop policies and methodologies to monitor and manage risk covered in Pillar-II of Basel II and to meet the challenges of ICAAP.

35.2 Capital adequacy ratio

	2008	2007
	(Rupees in '000)	
CAP 1

36. RISK MANAGEMENT

Risk taking is central to all financing activities. The Company evaluates business opportunities in terms of the risk-reward relationship. The risk that company takes are reasonable, controlled within its financial resources and credit competence.

The following key principles form part of our approach to risk management:

- The Board through its subcommittee reviews and approves risk policies and tolerance limit whenever required.
- Various committees at functional level oversee the implementation of risk management policies.
- Market and Liquidity Risk are managed by a well-represented Asset Liability Committee (ALCO). And the Credit Committee oversees Credit Risk.
- The Risk Management function acts independently.

The risk management framework is based on prudent risk, measurement monitoring and management process which are closely aligned with all activities so as to ensure that risks are kept with an acceptable level.

36.1 Credit risk

Credit Risk is the risk of loss due to the failure of a borrower to meet its credit obligations in accordance with agreed contract terms. Company's Credit process is guided by centrally established credit policies, rules and guidelines continuing to close to the market approach with aim to maintain a well-diversified portfolio of credit risk who produces a reliable and consistent return.

Company has a system of checks and balances in place around the extension of credit that are:

- an independent risk management function.
- multiple credit approvers
- an internal audit function

Silent features of risk approval process as follows:

- Every extension of credit to any counter party requires approval by pre-defined level of authority.
- All business groups must apply consistent standards in arriving at their credit decisions.
- Every material change to a credit facility requires approval at the appropriate / pre-defined level.

The company is using Basel II standardized approach to calculate risk weighted assets against credit risk.

The company performs stress testing on its credit portfolio according to SBP stress testing guidelines.

The disbursement, administration and monitoring of credit facilities is managed by Credit Administration Department (CAD) linked to various business units.

The company monitors its credit portfolio on continuing basis. Procedures are in place to identify at an early stage, credit exposure for which there may be a risk of loss.

36.2 Liquidity risk

Liquidity Risk is the risk that the company is unable to fund its current obligations and operations in the most cost effective manner.

To limit this risk the company maintains statutory deposits with the central bank. In addition, ALCO is the forum to oversee liquidity management. The company's key funding source is the inter-bank money market. Change in government monetary policy and market expectations of interest rate are the factors that can affect the company's key funding source. Comprehensive gap analysis is done on monthly basis to evaluate match / mismatch of assets and liabilities. Based on the results, ALCO devise the liquidity management strategy to maintain sufficient liquidity.

36.3 Market risk

It is the risk that the value of on and off - balance sheet positions of a financial institution will be adversely affected by movements in market variables, such as interest rates, foreign exchange rates, equity prices and credit spreads.

PKIC is exposed to interest risk and equity price risk. Market Risk at PKIC is managed by the Risk Management Function which makes sure that exposure in Money Market and Equity Market adheres with the risk tolerance level and matches with overall business goals set by Board of Directors (BOD), Risk Management Committee (RMC) and Asset Liability Committee (ALCO).

Market Risk pertaining to the Trading Book consists of positions in financial instruments held either with trading intent or in order to hedge other elements of the trading book. The trading book includes equity securities classified as "Held for Trading". These positions are actively managed by the capital market department.

All investments excluding trading book are considered as part of banking book. Banking book includes:

- Available for Sale Securities
- Held to Maturity Securities
- Other Strategic Investment
- Investment in Government Securities, Bonds etc.

Due to diversified nature of investments in banking book, it is subject to interest rate risk and equity price risk.

The company is using Basel-II Standardized approach to calculate risk weighted assets against market risk exposure.

36.3.1 Interest rate risk

Interest rate risk arises when there is a mismatch between positions, which are subject to interest rate adjustment within a specific period. The company manages its interest rate risk by entering into floating rate agreements with its customers. To discuss the interest rate risk strategy ALCO conducts a meeting on monthly basis. The risk management function carries out stress testing to ascertain the interest rate risk on the balance sheet and also prepares the interest rate risk profile on monthly basis.

36.3.2 Currency risk

Foreign exchange risk arises in case of an on balance sheet / off balance sheet asset or liability position when there is adverse exchange rate movement. The company's exposure to this category of market risk is negligible.

	2008			Net currency exposure

	<u>25,875,383</u>	<u>11,543,691</u>	<u>-</u>	<u>14,331,692</u>

36.3.3 Equity price risk

It is the risk to earnings or capital that results from adverse changes in the value/price of equity related portfolios.

The Equity Portfolio Strategic Committee (EPSC) approves exposure limits applicable to investments and meets on regular basis to discuss equity investments related strategy. EPSC is responsible for making investments decisions in the capital market and setting limits that are a component of the risk management framework. Portfolio, Sector and Scrip wise limits are assigned by the EPSC to guard against concentration risk and these limits are reviewed and revised periodically. Risk management function ensures compliance of portfolio, sector and scrip wise limits set by EPSC and regulatory authority.

36.4 Operational risk

Operational risk is the risk of loss resulting from inadequate or failed internal process, people and system of form external events.

The Company is using Basic Indicator Approach to calculate Operational risk weighted assets as per Basel II requirements for capital adequacy calculation.

37. ACCOUNTING ESTIMATES AND JUDGEMENTS

37.1 Provision against non-performing advances

The management reviews the loan and lease portfolio to assess non-performing accounts and expected recovery on a quarterly basis. In determining the non-performing accounts and provision requirements, the relevant Prudential Regulations issued by the State Bank of Pakistan, payment status of mark-up and principal, expected future cash flows of the business, security position and personal wealth of the directors and owners are taken into account.

37.2 Classification of investments

In classifying investments as 'held-for-trading' the company has determined securities which are acquired with the intention to trade by taking advantage of taking short term market / interest rate movements and are to be sold within 90 days.

In classifying investments as 'held-to-maturity' the company follows the guidance provided in SBP circulars on classifying non derivative financial assets with fixed or determinable payments and fixed maturity. In making this judgement, the company evaluates its intention and ability to hold such investment to maturity.

The investments which are not classified as 'held for trading' or 'held to maturity' are classified as 'available-for-sale'.

37.3 Impairment of 'available-for-sale' equity instruments

The management determines that 'available-for-sale' equity investments are impaired when there has been a significant or prolonged decline in market value / fair value below its cost. In making this judgement, the management considers among other factors, the decline in market price below cost by 30% as significant and if the decline in market price persists for 9 months as prolonged.

37.4 Valuation of equity instruments

On 26 August, 2008 a floor was placed on the Karachi Stock Exchange Index and the trading volume reduced significantly. The floor was removed effective 15 December 2008, but due to lock mechanism in place, there were lower locks on a sale of shares and in certain shares the trading has not commenced. The equity securities have been valued at prices quoted on the KSE on December 31, 2008 without any adjustment as allowed by the State Bank of Pakistan BSD Circular Letter No. 2 dated January 27, 2009.

37.5 Income taxes

In making the estimates for income taxes currently payable by the company, the management looks at the current income tax laws and the decisions of appellate authorities on certain issues as described in note 19 and the appeals of the department pending at various levels of authorities.

37.6 Gratuity

The company has adopted certain actuarial assumptions as disclosed in note 30.1.1 to the financial statements for determining present value of defined benefit obligations and fair value of plan assets, based on actuarial advice. Any change in the assumptions from actual results would change the amount of unrecognised gains and losses.

38. NON ADJUSTING EVENT AFTER THE BALANCE SHEET DATE

The Board of Directors of the company in a meeting held subsequent to year end have decided to transfer Rs.274.837 million from contingencies reserves and Rs. 2,884.053 million from marketable and government securities reserves to accumulated loss. Accordingly, the accumulated loss would be wiped out and un-appropriated profit would amount to Rs. 16.010 million after the transfer.

39. DATE OF AUTHORISATION FOR ISSUE

These financial statements were authorised for issue in the Board of Directors meeting held on 05 March, 2009.

40. GENERAL

The JCR-VIS Credit Rating Company Limited has maintained long term credit rating of AAA (Triple A) and the short term rating of A1+(A one plus) for the company. The Pakistan Credit Rating Agency (PACRA) has made an adjustment in the long-term entity rating to AA+, while maintained the short term rating at A1+ (A one plus).
